REPORT.

TO THE INHABITANTS OF THE TOWN OF CAPE ELIZABETH:

The Selectmen, Assessors and Overseers herewith submit their Annual Report for the financial year ending Feb. 1st, 1882.

The several accounts will show that in all cases the expenditures have fallen within their respective appropriations.

At the last Annual Meeting, the Town appointed a Committee of ten, to devise some method to meet the debt as it matured. And after mature consideration, your committee submit to you for approval, their report in printed form.

As will be seen by the Collector's Reports, a large amount of taxes are still uncollected, and in order to meet our bills, the town is obliged to hire money. This is all wrong, the taxes should be collected and all bills promptly paid, and the \$8,022.82 of outstanding town orders, bearing six per cent. interest, called in and cancelled.

We would advise that some action be taken by the town as to the mode of collecting taxes.

Final abatements have been made by the Assessors to Mr. Fickett, on all taxes for the year 1879.

The Poor Account shows that a large amount has been expended for insane. There are at the Hospital supported by the town, Marshal S. Spaulding, Henry G. Lombard, Charles Thrasher, Abbie E. Staples and Rebecca A. Fickett.

Out Door poor receiving help: Abbie Hunnewell and Patrick Feeney's family.

The Alms House under the excellent Superintendence of Mr. Nathan Huston, and his wife as matron, we wish to notice with favor. With them the poor house has been made a pleasant and comfortable home, and discipline and good order prevail among the inmates. At our visits to the House and Farm, we were highly pleased with the management of both.

The farm shows a deficiency of \$157.41.

List of persons supported at Alms House, for the year ending Feb-1st, 1882.

The following cases in litigation have been disposed of.

The case of the town against George H. Lombard, for expenses of the town for his support at the Insane Hospital, which has been pending for several years and before law court twice. Judgment has been rendered in favor of the town for \$704.71 debt, and \$86.98 costs, and a levy has been made upon his real estate in this town to satisfy debt and costs.

There has been a severe contest before the County Commissioners, relative to the taxes upon the real estate of John Mussey, of Portland, covering the years 1879 and 1880, which resulted in a reduction of his valuation for 1879 of \$4,000 and for 1880 of \$1,800.

In the case of Charles A. Donnell against the town, for one thousand dollars damages, for personal injuries received on the Spurwink Marsh Road, there was a long and sharply contested trial in the Supreme Court, which resulted in a verdict for the town.

An appeal was made to the County Commissioners by D. W. Clark & Co., to confirm the location of the road leading from their land to Lincoln Street, as reported at the last annual meeting, and not accepted by the town. The Commissioners, after hearing the parties, confirmed the location.

We have had more litigation than usual the past year, but the town is now free from litigation, and, for many years, our contested cases have been decided in our favor.

We would respectfully recommend the following appropriations for the year 1882.

For Schools,	\$4,300 00
Roads and Bridges,	3,000 00

REPORT OF SPECIAL COMMITTEE

—ON—

REFUNDING TOWN DEBT.

To the Citizens of Cape Elizabeth:

The undersigned, appointed at the last annual meeting to take into consideration, and devise a method of paying the war debt of the town at maturity, have given the subject their careful attention, and submit the following report: We find the total bonded indebtedness of the town to be \$69,450. \$52,450 of which was issued for war purposes, \$5,000 to pay town bonds which matured in 1872, and \$12,000 for building town house.

\$25,900 of the war debt falls due in 1883, and we would recommend that it be paid at maturity by issuing new bonds, payable as follows: \$5,000 in 8 years, \$5,000 in 10 years, \$10,000 in 12 years, and 5,900 in 13 years.

Of the debt falling due 1885, we would pay \$5,000 by issuing new bonds payable in 12 years from date, making in all \$30,900 of new bonds. The balance of the debt, as well as the new bonds, we think can easily be paid, (with the balance in the treasury which has been assessed for that purpose) by raising by taxation \$4,000 yearly, until paid, which would be in 1897—17 years.

The annexed table will more fully explain the plan for refunding and liquidating the debt, as proposed by your committee.

At the present rate for money we are of the opinion that a new 4 per cent. bond could be sold at par, but as our earliest maturing bonds which bear 6 per cent. interest, cannot be reached for re-funding until Aug. 8th, Nov. 18th, and Dec. 5th, 1883, it is impossible to say what rate of interest we may have to pay at that time, and we suggest that the Selectmen be authorized to ascertain if some arrangement cannot be made with the present holders of the old bonds, whereby they can be exchanged for a new 4 per cent. bond, the town paying them the difference in interest, or they to retain the coupons until maturity, and the new bonds to commence bearing interest at that time, thus securing to the town, the benefit of the present low rate.

Respectfully submitted,

THOMAS B. HASKELL,	}	COMMITTEE.

Report of Special Committee of District No 14.

Mr. Wesley Sawyer, a well known teacher of this town, having been employed to teach the winter term of the school in this district, applied, (as we are informed) to the S. S. Committee of this town on the twenty-sixth day of Nov. 1881 for a teacher's certificate, permitting him to teach said school, and the Committee refused to examine him, and also refused him a certificate and notified the Agent of the same; whereupon said Agent requested of the said Committee their reasons, if any, for so acting. The Agent being refused satisfactory reasons, permitted Mr. Sawyer to teach the school, whereupon a meeting of the legal voters of the district was called and held on the twenty-eight day of January 1882. Said meeting voted, unanimously, that the town be requested to pay Mr. Sawyer a reasonable compensation for teaching said school and also chose a committee consisting of the following legal voters of the District:—J. Marriner, E. C. Robinson and A. H. Hanscomb and instructed them to visit the school and report its condition to the Selectmen of this town and request them to make the same a part of the Town Report. The above named committee have attended to the duties assigned them and herewith respectfully submit their report.

The average attendance has been good and perfect harmony has prevailed; We have never visited a school, where good discipline has been more apparent and where the teacher has more earnestly labored for the advancement of his pupils. In this respect he has admirably succeeded. So far as we have been enabled to learn, the parents are of one mind and the universed verdict is, a more profitable school has not been taught in this District for several years.

GRADUATES OF THE HIGH SCHOOL.

CLASS OF '81.

Sadie Smith Bryant,

Mary Franklin Willard,

Wilbert Soule.

There has been no change of teachers in the High School during the year. In this, the school has been very fortunate, for, under such good management as it now is, we deem the prosperity of the school assured.

A glance at the table of general statistics will show the number of scholars registered and in attendance, and the representation of the several school districts, while the table of classes will show the general arrangement of the scholars as to studies pursued.

The success of this school during the past year, will be the source of much pleasure and gratification to our graduates, such as they only can appreciate, while it wins for the school the admiration of all our citizens.

WRITING.

The committee are pleased to note the careful attention given to instruction in writing by a great number of our teachers.

Thorough and systematic drill and discipline, have wrought a great improvement in this department.

The uniform gradation of classes and the practical methods used in this exercise by the teachers, and the strict fidelity with which the pupils have applied themselves to the acquirement of principles taught and skill in execution, are worthy of highest commendation.

CONSERVATIVE METHODS.

No radical changes have been made in any of the departments, the committee believing, that so long as "pure intellect is crowned as regal," "new departures" and startling theories, will not be considered necessary in order to accomplish good school work. So that, while attempting to keep pace with modern methods to some extent, we have felt justified in adhering to, and respecting methods and ways, which have been long tried and by experience approved.

UNIFORM COURTESY.

We would take this opportunity to thank district agents and teachers, for that kindly help which has been so uniformly tendered us, in our endeavor to better the standard of the schools and to attain to more satisfactory results. Without this assistance, our efforts must have proved futile. We gladly record our acknowledgment of this.

SCHOOL DISTRICTS.

DISTRICT No. 1.

Miss Ella Trickey has been in charge of this school during the year and has fully maintained her reputation as a thorough and systematic teacher. The closing examination gave ample proof of earnest and well directed effort.

No. 2.

This school has been under the instruction of Miss Angie Jordan during the year. At our several visits we found the school in excellent condition, the scholars studious and orderly, and the teacher active, earnest, and progressive in her methods of instruction and discipline, and, as a result, excellent progress was made in all the studies pursued.

No. 3.

This school has again been conducted through the year by Miss Carrie A. Gilmore, a teacher whose skill and ability in her chosen profession, entitles her to rank among our very best teachers. The improvement made in all the studies pursued was alike creditable to teacher and pupils.

No. 4.

Miss Lois A. Thompson had charge of this school. This was Miss Thompson's first attempt at teaching, and she certainly shows a fitness and aptitude for the work, seldom equalled by a beginner.

No. 5.

At the beginning of the year, Mr. D. O. Moulton resigned the position of teacher in the Grammar department, which he had held very acceptably to the district for a long time.

Mr. George F. Henley was placed in charge of the 1st Grammar department; Miss Hattie A. Hutchins of the 2d Grammar department; Miss Helen P. Spear of the 1st Primary department; Miss Julia A. Boultenhouse remaining in charge of the 2d Primary department.

Again we note the fact, that, for another year, the schools in this district have been very successful. The heartiness with which all have co-operated, to work for the best interests of the schools, is worthy of special mention. In filling vacancies at the beginning of the year, the agent, Mr. Walton, was extremely fortunate, since each teacher has met with most gratifying success.

No. 6.

Miss Maggie Pillsbury and Miss Sadie H. Gould, have continued in charge of the schools in this district. Both of the schools are in excellent condition, and the work accomplished fully equals that of any previous year.

No. 7.

The Spring and Fall terms were taught by Miss Annie Rand. This was Miss Rand's first experience as a teacher, but the work accomplished showed that her efforts for the benefit of the school had been untiring and highly successful. Mr. A. W. Ayer is teaching the winter term with his usual good success.

No. 8.

Miss Clara A. Jordan had charge of the school during the Spring and Fall terms. Good work was done, and the results accomplished were very satisfactory. The winter term is now in charge of Mr. S. D. Plummer, who is working faithfully and with good success.

No. 9.

Miss Arabella S. Jordan, had charge of the Spring and Fall terms. Good discipline and thorough instruction characterized the school.

The Winter term is now in progress under Mr. W. S. Libby, with good results.

No. 10.

Miss Fannie E. Libby, who taught the Winter term of '80-'81, in this district, has had charge of the school during the past year.

Miss Libby has wrought with much zeal, and accomplished excellent results, in that the pupils have made commendable progress. Although a small school, we have found a good degree of enthusiasm manifested in the studies pursued.

No. 11.

The schools in this district have been in charge of Mr. John A. Milliken, as principal, and Miss Minnie Sawyer and Annie Barnes, as assistants. The duties of the principal have been discharged in a manner highly creditable to his skill and ability as a first-class instructor. The assistants, although without experience in teaching, have shown an aptness to govern and instruct, which promises well for their future success. Both the Grammar and Primary departments have made excellent progress in all the branches pursued, and the system, good order, and department of scholars, both in and out of the school-room, has been creditable to them, and, we doubt not, equally pleasing to their parents and friends. We would call the attention of this district to the necessity of increased accommodations for their children. At several of our visits we found the school-rooms crowded to their utmost capacity, and it seems needless for us to remind you that no teacher, however faithful and competent, can continue to do good work under such circumstances. We would suggest the plan of erecting a building of only sufficient size to accommodate the smallest grade of scholars, as, in our judgement, worthy of consideration. Then, with these grades, the two now existing might be materially improved, and the cost of the teaching force but little, if any, more than under the present arrangement.

No. 12.

Miss Eliza F. Hutchins has been employed as teacher in the Grammar department during the year, and has succeeded in doing very excellent work.

Miss Annie Watson continued in charge of the Primary department, during the Spring and Fall terms, attaining, as usual, the best of results.

Miss Hutchins and Miss Watson rank among our best teachers.

Miss Lois A. Thompson was secured as teacher in the Primary department for the Winter term, which position Miss Watson resigned on account of ill-health. We believe Miss Thompson to be possessed of the requisites for a good teacher. She exhibits rare good tact and ability in imparting instruction, and governing her pupils.

No. 13.

The Grammar department has been conducted through the year by J. S. Fickett, a member of the committee.

The Primary department was again given in charge of Miss M. H. Thomas, who has successfully taught in this department for several terms. The results of this year's work have been very satisfactory to us, and creditable to her faithfulness and perseverance as a teacher.

No. 14.

The Spring term was taught by Miss Addie F. Dyer, Miss Dyer possesses excellent literary qualifications, being thoroughly equipped for the position of teacher. With experience, we anticipate she will rank well in the profession.

The district voted to unite the Fall and Winter terms and employ a male teacher. Mr. Wesley Sawyer was selected by the agent, but failed to get a certificate as required by law. We understand however that he opened the school and that it is now in progress.

In regard to the particulars of this individual case the committee would refrain from any criticism thereof in this report. They would say, however, that in the abstract on general principles, they deem such action discourteous, contrary to well established and respected usage and the statute regulations relating thereto.

CONCLUSION.

In conclusion we would say, that we believe our schools have accomplished very satisfactory results for the year past. Good school houses and school apparatus, with which the districts are quite generally furnished, and an excellent corps of teachers have made good work possible.

That the opportunity exists for much to be done in the line of improvement is patent; and the important benefits to be derived by the attainment of this, should prompt all to assist in the accomplishment of it.
